Villa Vager Hotel

In Arcadia, at the foothills of Mt Mainalon with its rich forest, Levidi stands proud and boasts not only of its past, but also of its present. Hotel Vager is located in the highest hill of the village, it revives the memories with respect to the past and offers the visitor the opportunity to travel through different eras. And all this, thanks to the transformation of an old “archontiko” of 1843 into a comfortable 4 star hotel.

On the top of the hill, almost in the centre of the village, Hotel Vager stands out offering the visitor an amazing panoramic view: the fir forest of Mainalon on the one hand, and the fields extending as far as the eye can reach, changing colors according to the seasons, on the other.

Let's add to all these the stately decoration, the rich home-made breakfast and the hospitality of the owners of Hotel Vager and you have one of the best hotels in Arcadia.

4 Star Hotel

Villa Vager Hotel features 1 Honeymoon Suite, 1 Superior Suite, 5 Junior Suites, 2 Double Rooms.

The names of the rooms are inspired from the big variety of trees of the Peloponnesian nature. Each room is unique in size, color and furnishing and yet all share the same authentic spirit.
